Plan for today

The policy making process

Chetshington city council meeting

Current events

The policy making process

It's easy!

Identify a social goal

Diagnose the problem

**Identify the appropriate
institution for action**

**Evaluate the substance and
politics of competing options**

**Implement, enforce, and
monitor the policy change**

Verify, define, and detail the problem

Establish evaluation criteria

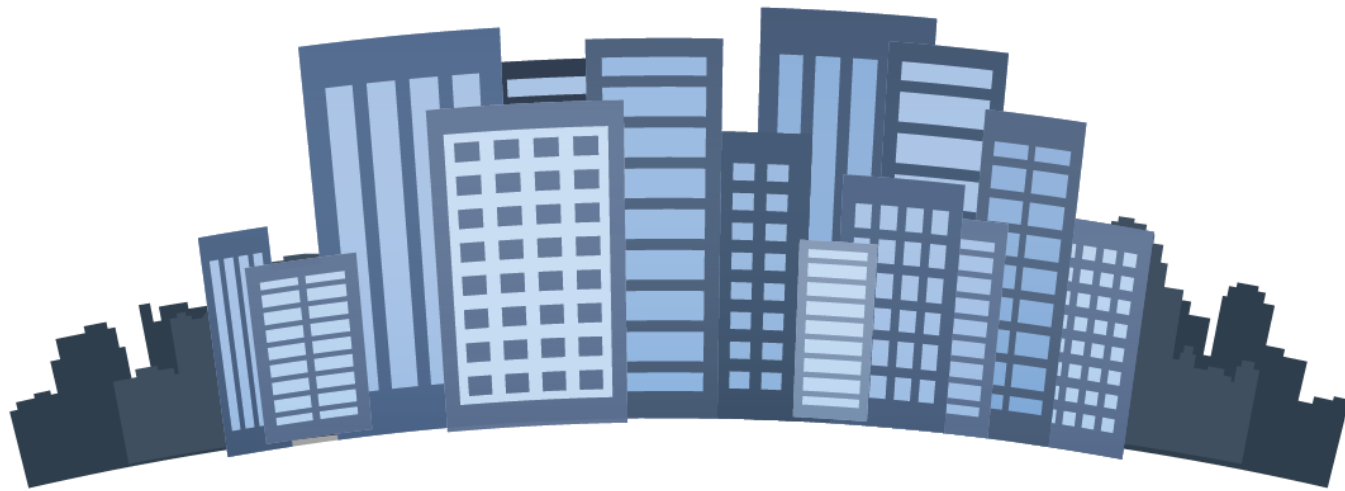

Identify alternative policies

Evaluate alternative policies

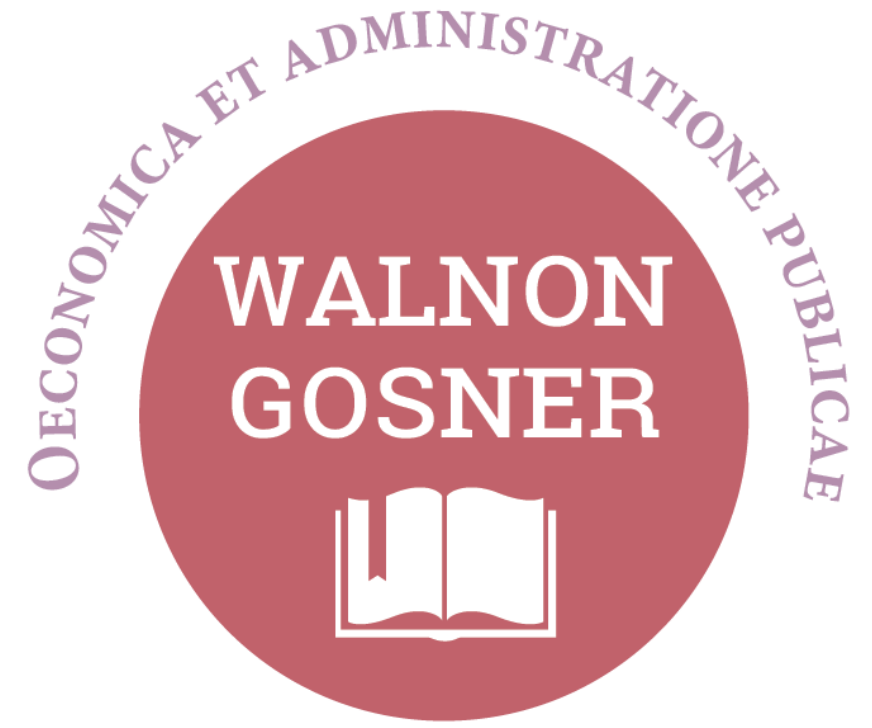

**Display and distinguish
among alternative policies**

**Monitor and evaluate the
implemented policy**

City council meeting

CHETSHINGTON

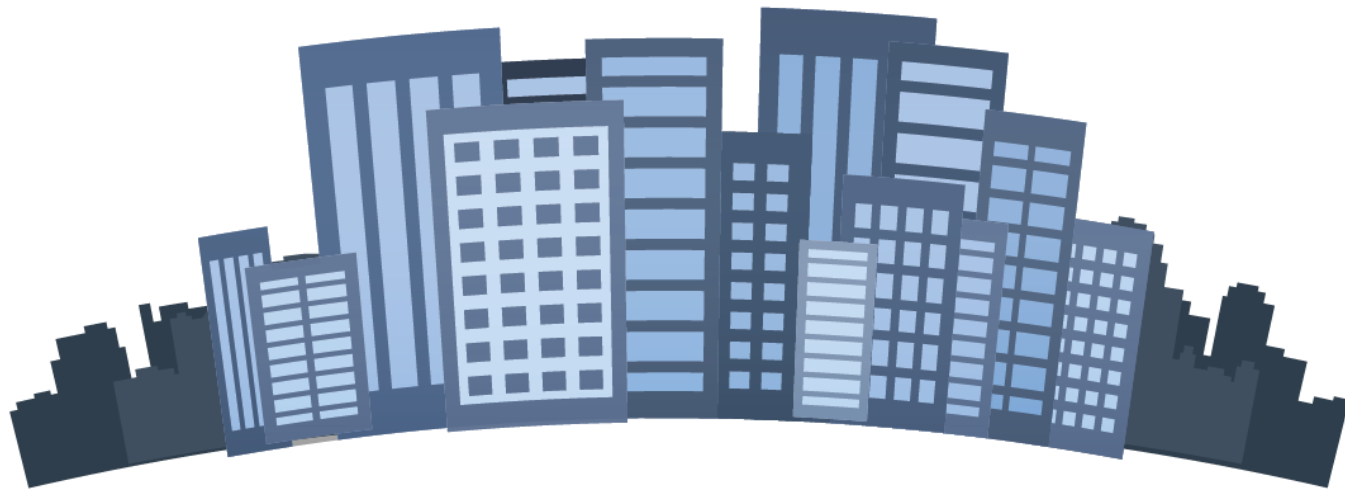

Describe your proposal

Economic justification

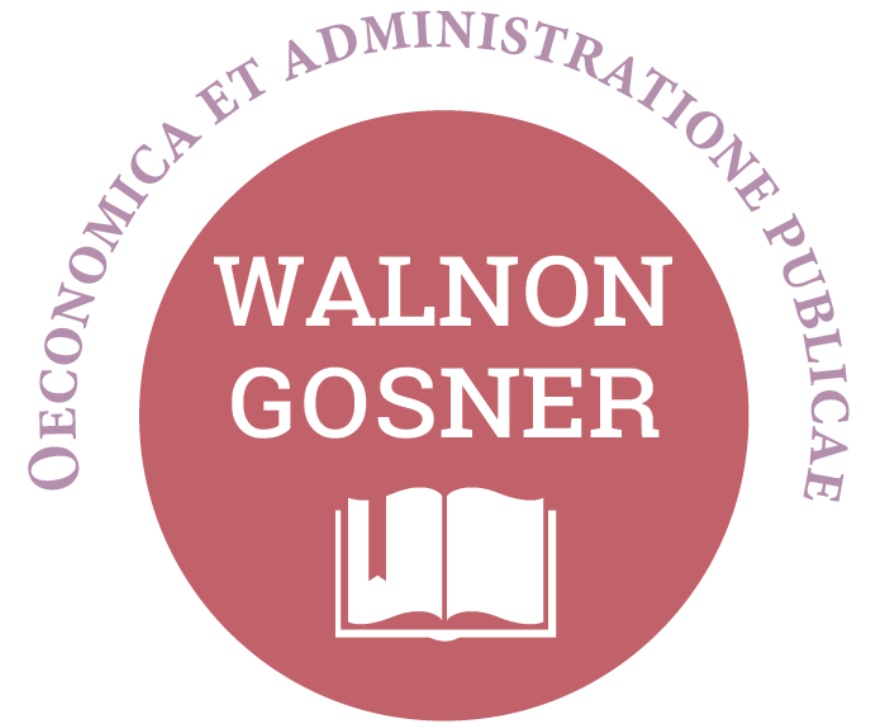

Ideological justification

Pragmatic justification

Any other justification

CHETSHINGTON

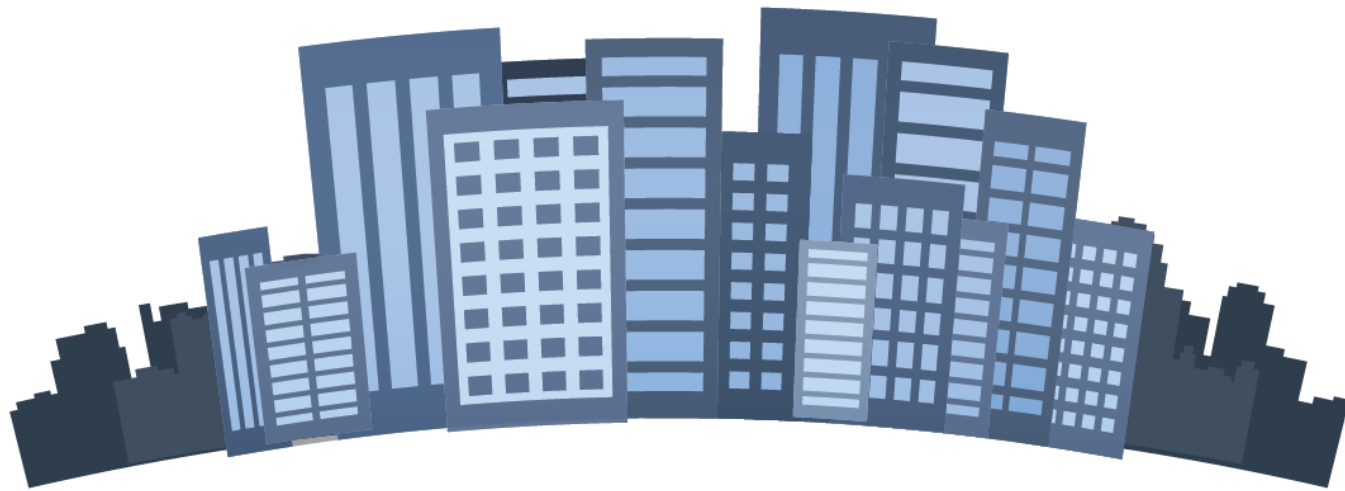

1. Which of these options do you support? Why?

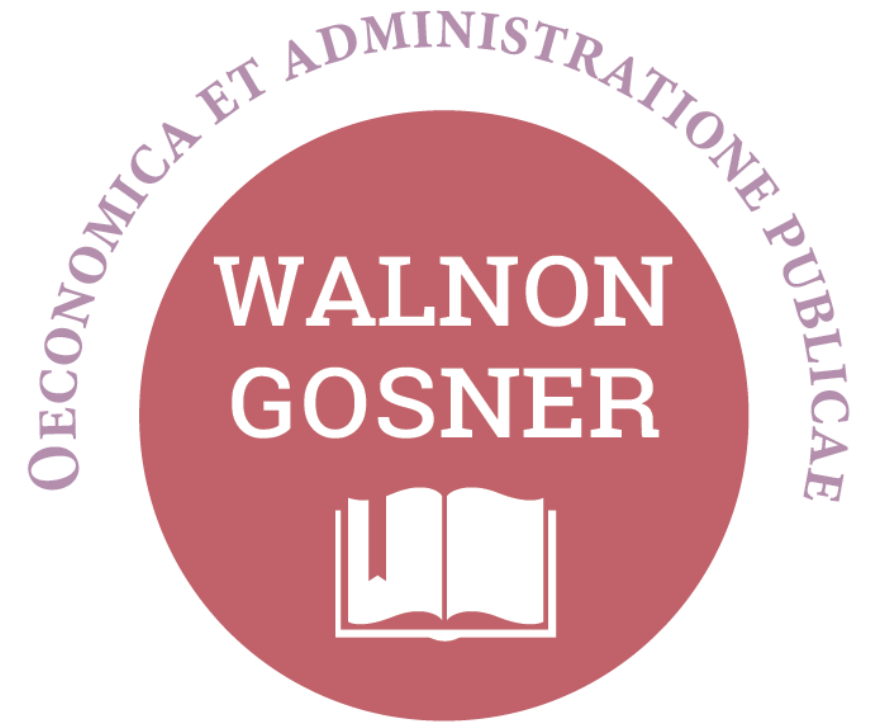

2. What makes you support your favored option? What makes you not support the other option?

**Do you support any of the options?
Why?**

Include economic, political, pragmatic, and/or ideological reasons

CHETSHINGTON

1. Explain how and why *you* voted

2. Describe what influenced your team's decision making

3. Speculate why the final vote went the way it did

4. Compare this process with the idealized public policy process

What worked? What didn't?

What did the ideal model miss?

5. What role did economic analysis play in the final decision?
